

WHAT THEY'RE SAYING ABOUT US...

INSIDE OF THE SPECIAL **SEATING AND TABLES**
FOR HOTELS THEY'RE TALKING ABOUT US!
(n. 93 April 2009)

ELEGANZA CONTEMPORANEA

SPIDER: small armchair, armchair and sofa with an enveloping and elegant line. A trio that can be used to make up a collection of seats that can echo modern life with their precision. SPIDER is the collection of padded seats with a chromed or painted tubular steel structure.

STEELMOBIL

NUOVA ESPRESSIVITÀ

Lively, intriguing, elegant and comfortable. KICCA is all this and much more. A real treat for its manufacturer as well as for its designer, but above all for all those who will use it. A design that was born thanks to the interpretation of a so-called 'deep-set' seat in the upholstered version. The objective was to obtain an item that transmits expressiveness while recovering a language of the past to update it and to ensure at the same time optimum comfort and ergonomics. The design inspiration was originated from the need to go to the bottom line of every technical problem linked to the consolidated, classic languages.
